(a) Metric function
f(r) = 1 − r_s/r
r/r_s
horizon r = r_s
f < 0: r is timelike

(b) Coordinate singularity is removable
metric component (dimensionless)
r/r_s
|g_rr| = 1/|f| (Schwarzschild coordinates)
|det g_(v, r)|/c² = 1 (ingoing Eddington-Finkelstein)
