(a) Interior-exterior entanglement of one mode
entropy of the outgoing mode [nats]
x = ħω/(k_B T_H)
thermal Bose mode (analytic)
truncated pair state, d = 2
truncated pair state, d = 4
truncated pair state, d = 8
(b) Convergence of the truncated state
|S(d) - S(analytic)|
truncation dimension d
x = 0.3
x = 1.0
x = 3.0
